Olivier Dupon's *The New Artisans*, a wonderfully illustrated new book profiling artists from around the world who create unique, handmade objects includes the work of **Kristin Lora**.

Anthony Tamarro has been selected to participate in the exhibition 'Open Mind' at the Sungkok Museum in Seoul, South Korea, opening November 10th. One of Anthony's selected works 'Neck Collar One' is seen below.

Congratulations to our artists!

Seth Papac will be participating in *Three Jewelers on Monomater (single, one, alone; alluding to matter, material)*, a lecture with Iris Eichenberg and Gemma Draper, to be held Friday, Nov. 4th during SOFA Chicago. Seth's work will appear in the 'Monomater' exhibition during SOFA.

Peg Fetter has been named the 2011 Designer Jewelry Competition 2nd place Mixed Media Designer of the Year!

Ring A Day, just released by Lark Books, includes several rings by **Victoria Takahashi**.

emiko oye was a featured artist and juror for the *Best of the 500 Series* by Lark books. Her work is on exhibit at 'MOVEment,' a showing of works by the Metal Arts Guild, CA. emiko was a featured guest twice this fall on Metalsmith Benchtalk by Whaley Studios on Blogtalkradio. Her work was showcased on the popular tech blog Gizmodo.com and io9.com. As the Co-President of the Metal Arts Guild of San Francisco, she is organizing a one-day symposium, Forging Communities, for jewelers and metalsmiths on Nov. 12th in Oakland, CA.

The Faculty Exhibition of the School of Art and Design to be held in the Wellington B. Gray Gallery of East Carolina University will include the piece 'The Preservation of Memory' by **Ken Bova** who has recently accepted a tenure-track position teaching the Metals Design area of ECU's School of Art and Design. Ken will also be teaching a workshop at Cape Fear Community College in Wilmington, NC on Saturday, Nov. 5th.

'Chosen Fragments,' a solo exhibition of **Yeonmi Kang's** jewelry will be on display Nov. 4 – 17th in Seoul, Korea. The theme of memory and personal perception provides Yeonmi with thousands of fragments which are used as clues to answer the question of who we are.
